**Subject:** Introduction

George, hi,

It's been a while – how are you? We need to catch up at some point. Hope all is going well.

À *propos*, I would to introduce you to my colleague Briana, who is a petroleum geologist and who works on subsurface issues for us. She would like to talk to you about the implementation of Class II in CA in relation to DOGGR's potential revisions and in general.

If you two end up scheduling something, I'd love to join.

Briana is sharp and reasonable, and I know you will enjoy her.

Hope all is well and to see you soon.

GP
